TECHNICAL SUMMARY

Product-focused Software Developer specializing in cross-platform mobile applications using Flutter and Dart. Experienced in the full software development lifecycle—from architectural design and backend integration (Firebase) to deployment on the iOS App Store and Google Play. Innovative problem solver who leverages AI-augmented workflows to accelerate development velocity and deliver scalable, user-centric solutions. Strong background in enterprise process automation (Microsoft Power Apps) with a passion for building intuitive tools that solve complex real-world problems.

TECHNICAL SKILLS

- **Languages:** Dart, TypeScript, Swift, C++, C.
- **Frameworks & Libraries:** Flutter, React Native (Familiar), Firebase (Auth, Firestore, Cloud Functions).
- **Tools & Platforms:** Git, VS Code, Google Play Console, Apple App Store Connect, Microsoft Power Platform.
- **Methodologies:** AI-Augmented Development (LLM integration for rapid prototyping), Agile/Scrum, CI/CD for Mobile, State Management (Riverpod/Provider).

SOFTWARE DEVELOPMENT PORTFOLIO

Shipped Products & Live Applications

JokeBook (Mobile Application) | *Available on iOS & Android*
Tech Stack: Flutter, Dart, Firebase, AI-Assisted Development

- Architected and deployed a cross-platform mobile application for the comedy community, currently serving **120+ active users**.
- Engineered a serverless backend using Firebase for real-time data syncing, user authentication, and cloud storage.
- Managed the full DevOps lifecycle: configured Google Play Console and Apple App Store Connect, handling strict compliance policies and release tracks.

Booked Mic (Event Management Platform) | *iOS (Live) & Android (Beta)*
Tech Stack: Flutter, Dart, Firebase, TypeScript

- Developed a dual-interface booking platform connecting venue hosts with performers, designed to replace manual sign-up sheets.
- Implemented complex state management to handle real-time slot booking, preventing double-bookings across concurrent users.
- Currently piloting the software with local venues for B2B inventory management of performance slots.

McCormick Enterprise Suite | *Internal Enterprise Tools*
Tech Stack: Microsoft Power Apps, Low-Code Automations

- Developed and maintained a suite of **10 custom internal applications** used by 100+ employees for safety auditing, inventory tracking, and incident reporting.
- Built logic-driven workflows that converted paper-based regulatory processes into digital apps, reducing audit preparation time by **90%**.
- Implemented randomized testing logic and digital signature capture to ensure compliance with third-party contractor safety standards.

Emma G Adventures | *Web & Android Learning Platform*
Tech Stack: Flutter Web, Dart

- Built and deployed a gamified learning application containing 400+ interactive lessons.
- Optimized performance for web-based rendering to ensure accessibility across desktop and mobile browsers.

PROFESSIONAL EXPERIENCE

McCORMICK & COMPANY | Atlanta, GA
Site IT Operations Manager & Internal Developer | *2022 – Present*

- Led the facility's digital transformation by identifying operational bottlenecks and building custom software solutions to resolve them.
- Served as the technical lead for integrating onsite hardware with cloud-based applications, ensuring seamless data flow for enterprise resource planning (SAP).
- Collaborated with cross-functional teams to gather requirements for internal tools, translating business needs into technical specifications and deployed applications.

NOT YOUR NANA'S BAKERY | Atlanta, GA
Product Owner & Technical Lead | *06/2016 – Present*

- Designed and implemented a cohesive technology stack (CRM and POS integration) to support business operations and sales strategy.
- Managed the full lifecycle of software implementation, from vendor selection to final integration and user training.

EMORY UNIVERSITY HOSPITAL | Atlanta, GA
Senior Technical Specialist | *11/2016 – 03/2022*

- Managed complex system integrations for clinical media services, troubleshooting hardware/software conflicts in a high-stakes medical environment.

THE SALVATION ARMY KROC CENTER | Atlanta, GA
IT Systems Manager | *06/2013 – 10/2016*

- Led the rollout of proprietary hardware and software systems across a multi-departmental facility.
